

Michael Theocharis

FRONT-END ENGINEER

Thessaloniki, Greece

+30 6977 149230 | michaeltheochar@gmail.com | michaeltheo | michael-theocharis

Front-end engineer focused on building reliable, maintainable products with React and TypeScript.

Summary

Front-end engineer with 5+ years of experience delivering production web applications with React, TypeScript, and modern UI tooling. Strong in component architecture, state management, API integration, and testable front-end systems, with complementary full-stack experience in Python and FastAPI. Proven in cross-border agile teams, shipping maintainable features and collaborating closely with design and back-end engineering.

Work Experience

ARX.NET

Thessaloniki, Greece

FRONT-END ENGINEER · TELUS SET-TOP-BOX

Jan. 2023 - Present

- Develop front-end features for the TELUS Set-Top-Box (STB) web application in collaboration with a distributed team in the UK.
- Build reusable React and TypeScript components with Redux and TanStack Query for predictable state and data flows.
- Improve UI quality and delivery confidence through Storybook, Chromatic, Jest, and Vitest-based component and unit testing.
- Integrate REST APIs and coordinate implementation details with back-end engineers across distributed teams.

ARX.NET

Thessaloniki, Greece

FRONT-END ENGINEER · ENTERPRISE CRM

Sep. 2021 - Jan. 2023

- Delivered responsive Angular and TypeScript features for an enterprise CRM platform.
- Maintained and extended core CRM modules, resolving production issues and preserving cross-browser compatibility.
- Contributed through code reviews and agile delivery practices that improved release quality.

Personal Projects

Internship Placements Website

placements.iee.ihu.gr

INDEPENDENT PROJECT FOR THE IEE DEPARTMENT

- Designed, built, and hosted a placements platform for the Department of Information and Electronic Engineering, using Nuxt 3, FastAPI, and PostgreSQL.

Nea Peramos Port Website

neaperamosport.gr

DESIGNED AND DEVELOPED FOR THE LOGISTICS PORT OF NEA PERAMOS

- Built a production website for the logistics port of Nea Peramos with React and TypeScript.
